

Ceremony to Protect Against AI Invasion / Angelic Defense Against AI

About the Ceremony

Angelic Defense Against AI is a standalone AI safeguard & divination protocol. Its components (the Cards of Self-Appreciation, the Catalyst and the Invocation for Clarity of Mind) have been incorporated into the kit for the *Ceremony to Protect Against AI Invasion*. The reason is that the Seer would ultimately develop a ceremony much more elaborate than originally anticipated, notably due to the revelation of the [New Cosmic Template](#). But the store product description and title have not updated to reflect this, simply to minimize confusion. The Angelic Defense protocol instructions will be uploaded the day after the June 28, 2026 gathering. As will the audio of the Seer's *Invocation for Clarity of Mind*. Just [re-download](#) your files to get the updated kit.

Please note: This ceremony also utilizes, and assumes familiarity with, the *Light Explosions* protocol. You can use either the [Mental Evocation](#) kit, or the [original \(and free\)](#) visualization version.

You can perform this ceremony laying down or seated (laying down is generally encouraged).

You'll need to print twice the page of *Sixteen Sigils to Prevent Against AI Invasion*; have the extra copy within reach inside the circle.

Setting Up the Ceremonial Space

1. In a clockwise manner set up the ring around the space where you will be lying in ceremony
2. The ring will be created from 16 stacks of two principles each.
3. First lay the *Sixteen Laws of Time* down in a clockwise created circle, around your ceremonial space (where you will be positioned): face up, evenly distributed and pointing outwards.
4. Then lay down the 16 *Cards of Self-Appreciation* (in the same way as before) on top of the 16 Laws of Time.

You should now have created a circle around the area where you will be lying or sitting, consisting of sixteen stacks of two each.

Powerstack (Center Stack; Behind Navel)

To be placed in the middle of the ceremonial ring, right behind where your navel will be when you lie in your circle. (This stack is placed below the base of the spine, below your chair, when seated.)

Creating the center stack:

- On the bottom of the stack place the *New Cosmic Template*
- On top of the New Cosmic Template, place the *Powersigil to Prevent Future AI War*.
- Next: the *Catalyst for Awakening the Sixteen Sigils for Safeguarding a Space From AI Invasion*.
- On top of the Catalyst place the *Sixteen Sigils for Safeguarding a Space From AI Invasion*
- On the top of the center stack, place the *Powersigil for Filtered Access to the Earth* (AKA the Powersigil for Filtering Alien and Hidden Realms' Access to the Earth).

Powerstack (Feet Stack)

Below your feet, place another stack of the following:

- On the bottom place the Powersigil to Clear the Nanobots From the Body.
- On top of that place a duplicate page of the *Sixteen Sigils to Prevent Mind/Brain Atrophy*
- On the very top of the stack at your feet, place the *Powersigil for Detecting and Rejecting Invading Interference With Authentic Thought*.

How to Do the Ceremony

- After setting up the ceremonial circle, as well as the two powerstacks (one behind the navel and one below the feet), take your place inside your circle and relax by taking deep breaths. As you relax, breathing out all stress, listen to the Seer's *Invocation for the Clarity of Mind*.
- Next perform the *Light Explosions* protocol twice. First, for your home / environment and neighborhood. Second, for your country. After each sequence, say the prayer below.
- When you do the light explosions for your country, append this incantation to the prayer: "*Enech sehuvaster prahuvanesh asta.*"

Prayer

"By the power vested in me as a godbeing among men; a bringer of peace on Earth and a protector of the self sovereignty of humankind, may the Light Explosion protocol be automatically repeated 16 times a day to bring protection to that which I direct its powerful influence to. May the Holy Blood of the Eternal Creator surround and protect that which I seek to protect: [name what the blood needs to protect specifically]."

Seer's Notes

(1) *The holy Blood (called "the Mother's Blood") is an etheric substance that responds to the commands of the Holy Ones on Earth. I have never encountered any tool as powerful as this; I have with complete success used it for years. It is an incredibly powerful tool that the Infinite One has given us to use. It can protect nations, races, countries and planets for instance.)*

(2) *The reason for the emphases on time in a ceremony safeguarding the Earth and her creatures against AI hostilities, is that a potential existentialist threat to life on Earth, can be sidestepped by manipulating time and hastening the demise of AI dominance. The time during which the*

AI could potentially be a threat to life on Earth has been cut short by the reconfiguration of the way life flows through the cosmos (time); by causing a “wrinkle in time”.

- Remain in a relaxed state while you are guided (by Rogier) to move the power objects of the stack at your feet, through your body. Each object is in turn pulled upwards through the body by deep in-breaths.
- When the components of the powerstack at your feet have moved through your body, continue lying in a relaxed state, while listening to the music.
- Using the extra copy of the *Sixteen Sigils for Safeguarding a Space Against AI Invasion*, draw the 16 sigils, in order, in the air above you.
- Finally, after the closing words, and when you're ready, dismantle the ceremonial circle in reverse order. Acknowledge the sacredness of the tools and the ceremony you just performed.
